

2011 Fall Pond Closing

As much as we dismay, it's time for another pond season to come to a close. If you are in need of assistance winterizing your pond please give us a call. We will perform the following services for only \$150.00

- *Remove excess leaves to prevent them from decaying in your pond.
- *Disconnect your pump and place it in a 5 gallon bucket that we will provide.
- *Drain the biofalls and remove the filter materials.
- *Cut back or remove your aquatic plants.
- *Install floating heater. (If you do not have one let us know upon scheduling.)
- *Install aerating pump. (If you do not have one let us know upon scheduling.)
- *Disconnect and blow out automatic water fill valve.

The cost of the heaters and pumps are:

300 watt Pond de-icer available for \$79.99 + tax

1000 gph Aquaforce pump available for \$199.99 + tax
